

JMSR Professional Treatment Menu Descriptions

The JMSR Professional Use Protocols are arranged by categories reflecting a progression in intensity of treatments, plus add-on protocols to enhance any treatment. Categories include:

- Enzyme Resurfacing Facials - proteolytic enzymes for gentle resurfacing
- Glycolic Resurfacing Treatments - 40% and 70% glycolic gel solutions for progressive resurfacing
- Microdermabrasion Resurfacing
- Add-On Treatments - address the eyes, lips, hands and back

Enzyme Resurfacing Facials

1. Proteolytic Enzyme Facial

Refresh your skin with the proteolytic enzymes of green, un-ripened papaya to gently exfoliate and resurface the skin followed by a soothing, hydrating mask. Skin will feel hydrated and look radiant.

2. C-ESTA Facial

Lift tone and firm the skin with the potent combination of lipid-soluble Vitamin C and DMAE to encourage collagen production, repair free radical damage, and enhance facial tone. Results are immediate with skin appearing smoother, brighter, more supple and firm, lifted and contoured.

3. Age Intervention Regeneration Facial

Rejuvenate your skin through powerful anti-aging antioxidants including the red wine extract Resveratrol, combined with skin rebuilding peptides and glycolic. Skin will remain beautifully soft and luminous for days.

4. Retinol Plus Facial

Amplify your anti-aging results with this advanced treatment of highly concentrated retinol PLUS anti-aging technologies for long term skin rejuvenation. This treatment will leave the skin instantly polished and more refined. Dramatically improves the appearance of fine lines and wrinkles, hyperpigmentation, sun damage and acne.

Glycolic and Microdermabrasion Resurfacing Treatments

5. Glycolic and Enzyme Resurfacing

A perfect accelerated facial treatment that combines glycolic acid with the proteolytic enzymes of green, un-ripened papaya to increase the resurfacing action without over stimulating the skin. Advanced topical agents are utilized to increase hydration, boost the skin's ability to repair damage and target inflammatory responses associated with aging. Skin will appear noticeably smoother, firmer, younger and healthier.

6. Glycolic Resurfacing

Experience the benefit of skin resurfacing and renewal with this 40% (or 70%) glycolic acid treatment to lighten the appearance of pigmentation, control acne, soften and smooth skin, increase hydration and diminish the signs of aging. For enhanced results, a series of six sessions is recommended.

7. Glycolic and Retinol Plus Resurfacing

For more intensified results, the glycolic resurfacing treatment is combined with highly concentrated retinol PLUS advanced anti-aging technologies for enhanced skin clarity and texture. Excellent for fine lines and wrinkles, enlarged follicles, coarse texture, sun damage, hyperpigmentation and acne-prone skin.

8. Microdermabrasion Resurfacing

The Microdermabrasion Resurfacing treatment combines the benefits of microdermabrasion with the intense hydration and skin rejuvenation that JMSR products provide.

Add-On Treatments

9. Rejuvenating Eye Treatment

A specially formulated treatment to “de-puff”, smooth and hydrate the delicate eye area. Skin around the eyes will appear toned, more firm and revitalized.

10. Lip Treatment

Get smooth, supple lips with this treatment that utilizes lipid soluble Vitamin C, DMAE and Tyramine to boost collagen production, repair free radical damage, and thicken the vermilion border of the lips to provide immediate visible results. Lips will appear smoother, fuller, and contoured.

11. Hand Refining Treatment

Improve the appearance of lines and wrinkle with gentle resurfacing on the hands. Skin will appear brighter, more refined, hydrated and nourished. This treatment may be performed in conjunction with any facial treatment and with the addition of hand warming mitts if desired.

12. Glycolic Hand Resurfacing

Target textural changes, dryness and discoloration with the Glycolic Hand Resurfacing treatment, designed to meet the challenges of aging and sun-damaged hands for immediate, visible improvement.

13. Microdermabrasion Hand Resurfacing

Similar to the facial treatment utilizing microdermabrasion, this resurfacing hand treatment also combines the benefits of microdermabrasion with the intense hydration and skin rejuvenation that JMSR products provide.

14. Proteolytic Enzyme Back Treatment

The perfect treatment for common back conditions, such as: dehydration, breakouts and oily skin. Treatment includes cleansing, exfoliation and extractions to leave the skin clean, smooth and refreshed.
